What is NannyPay® . . .

NannyPay® is an easy to use, inexpensive Windows® payroll system for employers of nannies, care providers, elder care givers, nurses, and other household help. NannyPay® and its accompanying Employer's Guide give you the power to comply with federal and state "Nanny Tax" laws yourself without buying complicated business software or hiring expensive payroll services.

Save time and money . . .

Tax laws can be complicated, but with a little initial effort anyone can set up a NannyPay® payroll system. NannyPay's® Employer's Guide and Set Up Wizard guide you through the set-up process. NannyPay® also comes with a list of federal and state tax resources and all the federal forms you need.

Once your payroll system is up and running, payday becomes a snap. At the click of your mouse, NannyPay® calculates all the appropriate withholding taxes, tells you what to pay, and generates a detailed pay stub for your employee. All you have to do is write a check. And when tax time arrives, NannyPay® can generate reports to assist you in completing your tax return.

NannyPay® won't overwhelm you . . .

NannyPay® was designed by household employers for household employers. Thus, unlike complicated business software and integrated accounting packages, NannyPay® includes only the features you need, including:

- set-up wizard
- prints Forms W-2 and W-3
- prints Schedule H
- complete payroll record maintenance
- liability and federal form reporting
- customizable reminders
- drop-down calendars
- customizable pay stub messages
- automatic cash advance handling
- vacation pay and bonus tracking
- transaction printing and exporting
- choice of pay stub forms
